Ark Home Healthcare: The new domiciliary care company has been set up with £17.5 million of backing from Ashridge Capital and Core Capital, the private equity groups. Ark Home is aiming to purchase three local care providers in the South of England. **Page 45**

Ashridge launches Ark

A new domiciliary care company has been set up with £17.5 million from private equity. Ark Home Healthcare is backed by Ashridge Capital, which is run by David Sherratt, the former managing director of Kaupthing Capital Partners, the private equity unit of Kaupthing Bank. More backing comes from Core Capital, which specialises in smaller companies. *(Catherine Boyle)*
